

# NX SERIES

FIXED AND VARIABLE  
SPEED ROTARY SCREW  
AIR COMPRESSORS  
15-37 KW

**SOME COMPANIES ARE FOUNDED ON HARD WORK.  
OTHERS ARE FOUNDED ON IDEALS.**

**FS-CURTIS WAS FOUNDED ON BOTH.**

**More than 160 years ago, the FS-Curtis way of doing business was established through two key commitments:  
a dedication to building quality products and a dedication to responsive customer service.**

Over the decades, the company and its products have evolved through innovation and new technologies. But those commitments to quality and service remain unchanged. Today, just as in 1854, FS-Curtis customers can depend on our products for reliable, long-term service. Equally as important, they can depend on getting the same from our people.

# A HISTORY OF EXCELLENCE

**1854**

Curtis & Co. –  
Empire Saw  
founded in St. Louis,  
MO, USA

**1857**

Earned Agricultural  
and Mechanical Fair  
award for excellence  
and quality

**1876**

Named Curtis  
and Co.  
Manufacturing

**1897**

Built first  
reciprocating  
air compressor  
that later evolved  
into the Master  
Line Series

**1914**

Supported U.S.  
Government efforts  
by producing more  
than 2 million  
Howitzer shell  
forgings

**1940**

Designed and  
developed  
mobile oxygen  
compressors to be  
used in Aerospace  
applications

**1955**

Merged with U.S.  
Air Compressor  
Company, Central Petroleum  
Company, Lewis  
Machine Company

**1976**

Merged with  
Toledo Tools as  
Curtis-Toledo Inc.

**1979**

Introduction  
of Challenge  
Air Series  
reciprocating  
air compressors

**1995**

Began  
manufacturing  
and assembling  
Rotary Screw Air  
compressors

**2005**

Expanded global  
market reach by  
joining forces  
with Fusheng  
Industrial

**2006**

U.S. Headquarters  
certified as  
ISO9001:2000  
and  
ISO14001:2004

**2010**

Introduced next  
generation GSV  
Variable Speed  
Rotary Screw  
compressors

**2015**

Introduced Nx  
series Fixed and  
Variable Speed  
Rotary Screw  
compressors

**2016**

Nx Series  
named Plant  
Engineering's  
2015 Product  
of the Year -  
Gold Award for  
Compressed Air

# PROVEN PERFORMANCE

## TRUSTED INDUSTRY INNOVATION

Nx Series air compressors from FS-Curtis are valued worldwide for their legendary reliability.

Housed in a space-saving design and built for continuous, quiet operation, the Nx Series delivers steady airflow with stable air pressure. The result is outstanding air quality with minimal oil carryover, giving you the performance you need backed by the durability you want.

# DemandSmart™

## ENERGY MANAGEMENT SYSTEM

### ENERGY SAVINGS ARE SMART SAVINGS

Take control of your energy savings with our optional DemandSmart™ Energy Management System, which includes the controller, variable-speed drive, and airend to create greater overall efficiency. This innovative design maximizes energy savings and reduces overall operating costs.

### INTELLIGENT VARIABLE SPEED DRIVE

One of the ways the DemandSmart system in Nx Series compressors maximizes energy savings is with a variable speed drive (VSD). The VSD allows you to match your energy usage to current system demands, eliminating the need to overpressure the system, so you'll save money by not wasting energy.

In addition, the soft starting capability of FS-Curtis' VSD reduces inrush current requirement, decreasing your power demand — and, of course, increasing your energy savings.

Nx SERIES WITH  
VSD LIFE CYCLE  
COSTS OVER 5 YEARS

- The VSD — time-proven directly coupled design — offers faster response and greater operational efficiency
- Variable operation slows airend speed, which lowers energy costs and reduces noise
- Matching the operating speed with changes in demand reduces component wear
- With DemandSmart technology, the VSD enhances quality by stabilizing air pressure at 1 psi increments
- Built-in DC choke protects against harmonic disturbances and eliminates the need to source additional corrective devices

ENERGY SAVINGS WITH VSD  
COMPARING LOAD/NO-LOAD  
POWER CONSUMPTION

# iCOMMAND-TOUCH

## TAKE CONTROL OF YOUR WORLD.

With the optional iCommand-Touch, a full-color screen displays graphs which capture and track factual, real-time air usage by the hour, day, week and month. Historical data can be retrieved at any time at the touch of the screen.

Data trending keeps your finger on the pulse of your entire compressed air system.

## Trending and Graphing Capabilities

Graph information can be conveniently download to SD card for historical records, troubleshooting and quality control measures.

### One-Touch Status Review At A Glance:

**Main Screen:** Displays image of compressor with red dot indicator spotlighting issues in the system, which reduces time in trouble shooting.

**Pressure:** Continuously tracks pressure range by day, week and month. This allows quick identification of pressure variations that effect plant operations.

**Temperature:** Real-time monitoring and trending of critical oil temperature enables early identification of potential shutdown and downtime.

**Air Quantity:** Monitors cubic feet of air usage, pinpointing peak production or down times in your operation.

**Usage:** Tracks how long machine is on, off or in standby. This allows you to analyze usage factor in your plant based on the operation of your compressor.

**Maintenance:** Tracks and displays hours of usage of critical components—oil filter, inlet filter, air/oil separator and motor—and timetable for replacement and/or maintenance.

**Air Circuit & Oil Circuit:** Quick diagnosis of key component operation within the air and oil circuit

## eCOOL<sup>®</sup> TECHNOLOGY

### A COOL INNOVATION

Compressors generate heat. FS-Curtis' exclusive eCOOL technology provides protection from heat and reduces thermal stress.

By combining smart compressor layout with intelligent component selection, eCOOL technology maximizes cooling airflow for greater energy efficiency, improved reliability and increases service life up to 50% longer for motors and electrical components and up to 30-50% longer for bearings, hoses and seals.

eCool technology maximizes cooling airflow for greater energy efficiency, improved reliability and extended service life.

# TECHNICAL DATA

## Fixed Speed

MODEL	CAPACITY FAD (CFM)				MOTOR	SOUND LEVEL (175 PSI)	DIMENSIONS	WEIGHT
	100 psi	116 psi	150 psi	175 psi	Kw / HP	dBA	(L x W x H In.)	Lbs.
NxD-15	88.30	81.24	74.17	63.58	15 / 20	72	50 x 35 x 60	1440
NxD-18	113.02	105.96	95.36	84.77	18.5 / 25	72		1440
NxD-22	137.73	130.67	113.01	98.90	22 / 30	73		1478
NxD-30	190.73	180.13	158.94	134.22	30 / 40	72	54 x 37 x 67	1889
NxD-37	233.08	222.49	197.77	173.05	37 / 50	72		1973

## Variable Speed

MODEL	CAPACITY FAD (CFM) Minimum - Maximum				MOTOR	SOUND LEVEL (100-175 PSI)	DIMENSIONS	WEIGHT
	100 psi	116 psi	150 psi	175 psi	Kw / HP	dBA	(L x W x H In.)	Lbs.
NxV-15	26.49 - 88.30	24.37 - 81.24	22.25 - 74.17	19.07 - 63.58	15 / 20	70	50 x 35 x 60	1440
NxV-18	33.91 - 113.02	31.79 - 105.96	28.61 - 95.36	25.43 - 84.77	18.5 / 25	72		1440

NxV-37	69.93 - 233.08	66.75 - 222.49	59.33 - 197.77	51.92 - 173.07	37 / 50	76		1973

# NX SERIES FEATURES AT A GLANCE

### dBa SHIELD NOISE REDUCTION

*Designed for quiet operation.*

- Use of centrifugal blower allows low sound and decreased energy usage
- Extra-thick sound insulation reduces noise
- Can be installed in applications where a quiet setting is important

### eCOOL® TECHNOLOGY

*The ultimate in system protection and reliability.*

- Protects critical components from compressor-generated heat
- Compartmentalized air flow design
- Extends component life and reduces downtime

### QUALITY COMPONENTS

*Built to the highest levels of dependability and reliability.*

- Standard TEFC motor protects compressor from surrounding dirty air, increasing the efficiency and prolonging the life of the motor
- Spin-on air/oil separator allows for quick maintenance and results in one-to-three PPM oil carryover. This translates into lower make-up oil costs and higher quality compressed air

### SUPERIOR PACKAGE DESIGN

*Low cost of ownership.*

- Space-saving compact design

- Exclusive FS-Curtis airends feature the latest rotor profile to maximize efficiency
- Simplifies maintenance through easy access to all components

### OPTIONAL DEMANDSMART ENERGY MANAGEMENT SYSTEM

*Ideal combination of variable speed drive, controller, and drivetrain.*

### VARIABLE SPEED DRIVE

- Results in outstanding energy savings day in and day out
- Reduces lifecycle costs

### PRECISION BUILT AIREND

- Exclusive FS-Curtis airends utilize precision cut rotor profiles to maximize proficiency

### ICOMMAND CONTROLLER

- Intuitive and easy to use
- Precisely delivers compressed air to usage

## NXGEN WARRANTY Extended Warranty Program

All Nx products are backed by an industry leading warranty :

- One-year airend and package warranty

\*If need extend warranty , please kindly contact sales person.

## CONTINUED COMMITMENT

A company history that dates back more than 160 years is a company history that, to us, is just the beginning. FS-Curtis is committed to offering a world-class portfolio of products. Through the dependability of our people and our quality-focused manufacturing, FS-Curtis will continue to be the most trusted and dependable name in compressed air serving even more markets through our ever-growing global presence.

You can count on **FS-Curtis** to approach the next 160 years by staying true to the values and strengths that are appreciated by our customers today.

## A WORLD OF DIFFERENCE

The FS-Curtis headquarters in St. Louis, Missouri, U.S.A. is the anchor of a larger global network. FS-Curtis builds quality products — and a quality reputation — at locations around the world.

In addition to our manufacturing and packaging locations, a large global network of sales agents and distributors ensures that sales and service support is available around the world, day in and day out.
